

Ramanujan Institute for the Development of Prodigious Young Mathematicians

About the Ramanujan Institute

The **Ramanujan Institute for the Development of Prodigious Young Mathematicians** is a non-profit educational organisation dedicated to identifying, educating, and developing children and adolescents aged 2 to 16 who exhibit exceptional abilities and prodigious potential in mathematics.

Our mission is to provide advanced mathematical education, holistic development, mentorship, and preparation for international competitions, including the International Mathematical Olympiad (IMO), enabling young talents to reach the most prestigious doctoral programmes in mathematics worldwide.

The institute supports its students through specialised training, competition preparation, psychological support, family guidance, research opportunities, and partnerships with leading universities and scientific institutions.

All donations contribute directly to programmes that promote access to high-level mathematics, scientific research, inclusion, diversity, and innovation.

Legal and Institutional Status

The Ramanujan Institute is registered in Brazil as a **non-profit civil association (associação sem fins lucrativos)**.

It operates under its official bylaws and is overseen by an International Advisory Council composed of educators, researchers, and professionals dedicated to the advancement of mathematics and science.
